

Community Progress Project Guide 2: Survey Your Neighborhood

I can collect data and analyze it and communicate it in a summary. (CCSSR7)

What changes should happen in my neighborhood?

Survey people in your neighborhood. Ask these questions and other questions you prepare.

Question	Response
What is your favorite place in our neighborhood?	
What do you like about living here?	
What is a problem in the neighborhood?	
How could people help solve that problem?	
Another Question	
Another Question	

Write down the answers to your survey.

Then tally all the answers for your class.

SUMMARIZE

Make a summary report. Summarize the answers you got as a class.

1. What are the places most people like?
2. What do most people say they like about living in the neighborhood?
3. What are the problems people identify?
4. What solutions do they recommend?
5. What are the answers to your own questions?
