Keep it simple, Smarty.

Mainstream Effective Methods of Special Education

✓ Chunk the content.
✓ Give clear directions both in writing and orally.
✓ Use pictures and graphic organizers so students see what they are learning.
✓ Have students start with basics and expand knowledge and skills.
✓ Give students "scaffolds" to organize their learning.

These resources were developed by the DePaul Center for Urban Education through Chicago Teacher Collaborative, sponsored by the US Department of Education Office of Special Education Programs, and the Teacher Leadership Network, sponsored by the Polk Bros. Foundation, and are provided for use in Chicago Teaching Partners, a collaboration with the Chicago Public Schools Office of Specialized Services.

These resources are useful for all subjects.

They are adaptable to all grade levels and subjects.

The tools in this guide will be particularly helpful to increase student competency to:
> Read non-fiction text
> Write with focus and support about current learning
> Prepare for tests and continue to learn important content.

They correlate with State Standards and ISAT.
Underline each strategy you use frequently in your teaching.

1. Explain directions and give concrete examples
2. Maintain frequent eye contact
3. Give verbal directions in clearly stated steps
4. Test one concept at a time
5. Walk by student’s desk to check for accuracy and on task behaviors every 15 minutes
6. Write assignments and give verbal instructions
7. Provide visual aids
8. Give simple directions with written examples
9. Ask student to explain what you said in his/her own words
10. Reinforce previously mastered skills
11. Provide motivation and verbal rewards on a daily basis
12. Enlist parental cooperation
Teacher’s Choices

❖ What’s important to teach?

What will you organize to make February a meaningful Black History month for your students?

❖ How do my students learn?

❖ How will I assess their learning?
Teacher’s Strategies:

1. Chunk the content.

2. Choose varied activities.
   Visual       Verbal       Active       Interactive
   Individual   Pairs        Teams        Whole Class

3. Coach the learners.

4. Check the learning.

5. Check the teaching:
   ✓ Was I clear?
   ✓ Did I give directions in more than one way?
   ✓ Did I give examples?
   ✓ Did I ask students to re-state directions?
   ✓ Did I ask students to explain what they were learning?
   ✓ …

6. Choose responses to individual needs:
   --re-model differently
   --use different models—including other learners

Demonstrate a new strategy with a familiar text.

Who is in this story?
I can identify character traits. (1A)

Little Pink Riding Hood was a 10-year old girl who loved to wear pink clothes. That is why she really liked her special coat.

One day she put on her coat. She picked up a basket of food. She was going to take it to her grandmother's house.

Her grandmother was sick. Little Pink Riding Hood loved her grandmother. She was a very kind grandmother.

Little Pink Riding Hood walked through the woods. She ate some of her grandmother’s cookies, which she had baked and covered with pink icing. While she was eating a cookie, she met a wolf. He smiled with big teeth. The wolf asked her where she was going. She said, “I am taking food to my grandmother. Would you like a cookie?”

He thanked her but told her he did not like cookies. The wolf said she was a very sweet child. She smiled. He asked where her grandmother lived. She told him that she did not have good map skills but that it was a place she could always find by looking for pink. It’s a pink house.

Then she met a squirrel. It was little and fluffy. The squirrel asked her, “Have you seen a big, bad wolf?” “Well, I saw a wolf,” she answered. Then she explained.

George Washington Carver lived from 1864 to 1943. He spent much of his life helping farmers to use their land in better ways. His ideas have helped farmers in many countries around the world.

Carver was in charge of farm research at Tuskegee Institute, a college in Alabama. He taught students how to farm. He also worked with southern farmers on their land. In the southern part of the United States, most farmers had grown cotton for so many years that the soil had worn out. Carver showed them how to improve the land.

Carver said the farmers should plant peanuts. Peanuts would enrich the soil. Farmers asked who would buy so many peanuts if they planted them. Carver answered by finding more than 300 new ways to use peanuts. Farmers could feed the vines to farm animals. They could use the hulls for fertilizer. Carver even found a way to make paper from the peanut shells.

When Carver died, he left his money to help people to keep working on farm research. Today, people from many countries come to the George Washington Carver Foundation at Tuskegee Institute. There they learn better ways of farming. Why is this important to the world today?
