$\qquad$ WEEK OF: $\qquad$
THINK BY THE WEEK: Choose a chunk, layer the development
Example of a week-long pattern for math instruction.

| What's Important? | Monday Activities Make It Clear. | Tuesday Activities Take It and Use It. | Wednesday Activities Work on It. | Thursday Assess/Clarify Think It Through. | Friday Activities Fix and Finish |
| :---: | :---: | :---: | :---: | :---: | :---: |
| MATH SKILL/ STRATEGY |  | Focus $\qquad$ <br> Activities | Focus $\qquad$ __Student Demonstrates __Homework Review/Connect __Last Week Review/Connect $\qquad$ <br> Activities | Focus $\qquad$ <br> Activities | Focus __KWL _Teacher Models __Student Demonstrates __Homework Review/Connect __Last Week Review/Connect - $\qquad$ <br> Activities |
| Vocabulary: | Activities <br> Teacher models. Students apply. Students start this week's math glossary. | Activities <br> Teacher re-presents Students use independently. Students practice with partner. | Activities <br> Students present to class. <br> Students write explanation of the math. <br> Students use to make up problems. | Activities <br> Math quiz-students solve questions made by other students and teacher and explain how to solve them. | Activities <br> Students write own math book pages, including examples of how this math is part of Chicago. Teacher coaches in "math clinic" for some. |
