Dear Mayor Daley,

1 I have some big ideas for you to change Chicago and make it a better place.

2 This is how we're going to change Chicago. We think that Chicago should have more schools. This would give the children of Chicago a better education.

3 We would have less students in the classroom so students would learn more. This means our Isat test scores would go up which is great. We could also hire more teachers.

4 I hope that you can find money to make this big change and help the children of Chicago.

Sincerely,
