

10810 S. Avenue H

5-4-09

Dear Mayor Daley,

Do you want a better planet? I will tell you what I'm going to talk about:

- 1 More libraries
- 2 Recycle
- 3 More schools
- 4 More trees
- 5 Less cars

We need more libraries because we need more education to learn more like Albert Einstein the smartest person in the world. We people need to recycle because we are killing the planet. Please say this. We need more schools for more education. We need less cars because it kills the earth.

Sincerely,

please write back
