

Dear Mayor Daley

• Please take your time to read my plan for the City. My plan is to make our City safer and to make it nice, clean and fun here.

• First thing we should make our City safer because one time on the news a man killed his droht in a tolite. Also we need more police, officers because people are getting killed.

• Also we need to keep our City fun because we need some entertainment. People from around the world can see that we are the best City if we have some more entertainment.

• Last but not least we need our City nice and clean so the people from around world won't say "this is the most dirty City". That's why we need our City safer, clean and fun.

Thank you Mr. Mayor Daley for reading my plan/letter.

Sincerely,
Gabri
