

5/7/09

Dear Mayor Dakey,

Please read this letter to help our troubles in our community. It will make the city prettier.

The first problem is the littering. I think there should be a recycling program where recycled things can be picked up in our alleys. We need that because people are littering and that can destroy our home planet.

The second problem is safety. If there is a vacant building there might be a robbery. Whoever is the witness might be killed. So I think we should get rid of the vacant buildings.

Last but not least is beautification. I think every house, building, garden every thing should be

packed with flowers and decorations. If it looks nice it will stay nice.

Thank you for reading this letter. I hope you realize the troubles in our community. Thank-you.

Sincerely,
