

5/7/09

Dear Mayor Daley,

Please read our plans for our community. There are some ways to improve it - eliminate gangs and make it nicer.

I think you should eliminate gangs because they make me feel unsafe in my community. Also there has been a lot of deaths because of them and also shootings. "Boom Boom" that's what I hear sometimes. Do you hear that terrible sound?

You should make our community nicer by planting more plants and not only will it help our community but also the planet will be more beautiful and healthy. Easy-hire people in the community to help. You should also put more trash cans so that people won't litter as much and we should also start recycling more.

These are some ways you can help us with our community. So Mayor Daley I hope you would consider some of these things. Thank you, Mayor Daley. I hope you read our plan for better communities.

Sincerely,
