

05/06/09

Dear Mayor Daley,

Would you please take the opportunity to read our Chicago plan? It helps Chicago. It helps our communities. I would love to see safety, beauty and fun in all of Chicago.

My community is really unsafe. It hurts to see my community unsafe. Kids rather be in gangs than schools. Schools are so bad! Where I live. That's why my mom drives me to a different school. I know people who would love to be out of school. It's like they are not educated.

Some people do not get involved when they see crime. They don't report anything. They are so afraid. They shouldn't even be afraid. It's not their fault! But if everyone just works together, they would help stop crime.

Have you visited all of Chicago or just the lake front?

You have to be serious. I don't mean to be disrespectful, but this is Chicago! You have helped make Chicago a great city, you can help in making it greater. I am proud to be a Chicagoan, but you have to do what you got to do.

There's a word called "Thinking green" Not a lot of people are doing it! There's almost no recycling places and no programs. There should be more recycling going on. I mean it! Daniel Burnham had his dream. Let's have our dreams come true! All we need to do is all work together! We are not going to do it in 3 years we are going to do it right now. I'm sorry but I hate to see my community struggle like this!

We need volunteers so we could start cleaning up. Or give the homeless a job. And clean up schools too. There's always garbage on each block. Each day, day and night dusk, to dawn I see people drop somethings like

Chip bags, Candy wrappers, bottles and more. In Humboldt park you can always see something on the sidewalk even little kids should start picking up. In the summer if they don't have anything to do have them do Volunteering to help pick up. Instead of getting into trouble. How would it look like? It would look like a pretty community, That's how it would look like. You know why? because I have faith in the whole entire city. It doesn't only help our communities it helps our whole city!

We need to have fun in each community. Summer camps, parks, Boy a girl clubs. The reason is because now kids need more things to do. Fun is the main thing a kid could have. Each day they should be outside playing.

Babies also need fun while they grow up. Don't you want to see them having fun. And parents should no longer be afraid of letting their children go out and play because they would no longer be seeing gangs. You know why because the gangs will be in school actually learning something and smiling when they read a book. That's what a plan is.

Our community may not be perfect, but we would all be happy because if we could do it, we will all be a family a hard working family. I am so sorry, but like I said you got to do what you got to do.

Thank you Mr. Mayor
Daley,

Sincerely,
