

Dear Mayor Daley,

Will you please read our letters about safety in our communities? Our communities need to be safe in every area.

First, our communities need to be safe. We should have more police in every area. For example if robberies are in one area almost all the time there should be police there 24/7. We also need police to catch people who are tagging, (spraypainting.)

Second, our communities need to be beautiful, not only by the lake front, but in areas far away from the lake front. I'm saying that there should be less litter and more recycling bins at schools, stores, and factories. Our world could be a better place.

Third, our communities should be fun. There should be parks in every community so kids can have fun on boring weekends, or after school.

Please help our communities be safe, beautiful, and fun. Thank you for reading our letters about how to make our communities better.

Sincerely,
