

Dear Mayor Daley,

Hello, my name is \_\_\_\_\_ and I want to tell you about my big plans for Chicago. Our school's name is Ariel Community Academy. It is a small school, but big faculty. Here are a couple ways to make Chicago great.

One way is to give people more books at home. I would have to ask somebody for help carrying all of those books up the stairs.

Secondly, I would read the books at home. I would read all different kinds of

books, It would be a lot of fun to read books.

My third reason is that you should buy more books or rent them so you do not have to spend money on buy them.

My fourth reason is that you should rent the books and bring them home. When you bring them home you can make a library out of all of those books.

My final reason is that you should read them like in the fourth paragraph. It says to read in your library. Then they can read books.

Sincerely,
