

Dear Mayor Dabey,

My name is [redacted] I would like to tell you that we have been learning about Chicago a lot. We also think Chicago is fun.

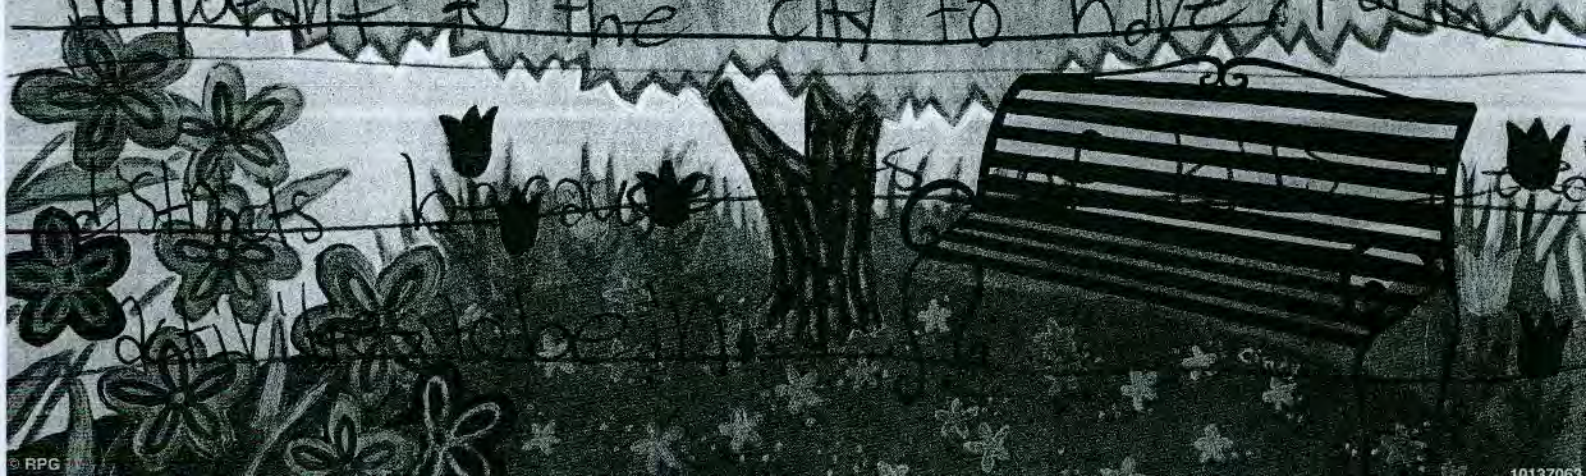

What we have been learning about Chicago is lots of architects.

We have learned about Columbus's trading post also. I have also learned about the great Chicago fire.

My bold plan is to open more parks districts. Then I would have a fundraiser to raise money. Then I would also have meetings

My persuasive argument. It is

important to the city to have a park

It will help the future because
in the future alot of kids
will be able to go to park
districts.

My bold plan is to open
more park districts

Sincerely,
