

Dear Mayor Daley

5/12/09

First, my name is [redacted] and I go Ariel Community Academy. We are working on Chicago's history and architecture.

These are thing we learned about my city Chicago. The Sears tower is' now the third tallest building in the world. Also Daniel Burnham made a plan for Chicago in 1909.

My big dream is to shut down any store that sells real guns.

This is impotant to the city because people are tired that little kids and adults are getting killed because they got shot. This is a good idea because people wont die in violent gun attacks.

That will be good for the city because they wont get killed. People wont go to jail. Less people will get robbed.

because somebody wants their money.

Therefore, Mayor consider my  
Bold Plan to stop stores from  
selling real guns. It will help the  
city.

Sincerely,

[Redacted]
