

Dear Mayor Daley,

5/14/09

Hello, my name is \_\_\_\_\_, I go to Ariel Community Academy. The class and I know that you have been Mayor for 20 years. We are in Third Grade and the teacher's name is \_\_\_\_\_.

I like cool stunts and skateboarding.

Also, we have learned about Chicago. Like Jane Addams, she wanted to help the poor people and made the Hull House in 1889. Also, if you are the Mayor for 2 more years you might beat your father as the longest Mayor in the history of Chicago.

Anyway my plan for Chicago is I could call the company that makes phones and ask them to give phones to parents so they can give them to kids. My dream is that kids in trouble can call for help.

Likewise, it is important to our city because families will be safe. If a kid has been kidnapped for no reason, that kid could run away and call for help or tell their parents where they are. Parent will be secure.

So that's it, cellphones for all children. I hope you enjoy what I wrote. This is what I just think and I hope you think so too.

Sincerely,  
\_\_\_\_\_
