

5/13/17

Dear Mayor Daley,

My name is [redacted]

I go to school at Ariel Community Academy. At Ariel I learn alot. I know all my math facts. I am in third grade. I am 9 years old.

At Ariel I learn alot of things. One of the things I learn at Ariel is Reading. We are Reading about Chicago. We learned that Dusable built the first trading post. Daniel Burnham had a big plan for Chicago, and Jane Addams built the hull house.

The people I have learned about they all have something in common. They all have gone to a leader so they can grade their plan and say what they have to say about it, except Dusable. I have a plan too. I would like you to grade my plan and say what you got to say about my plan. My plan is to have

Play parks that every kid can play on.  
I like 9 and up stuff at parks. I'll like it  
to go down like this: 1. Get Mayor Daley  
to accept my plan, 2. Hire people to help  
make my plan, 3. Color the materials  
with spray paint, 4. Add a ribbon to each  
park for it's grand opening, 5. See how  
my plan helped Chicago.

This is important because  
not only little kids under 9 are saving  
the earth but every kid can the earth  
by going outside. Every kid (little kid  
loves swings, but since there are no  
big kid stuff, big kids try to hog the  
swings. In the future this will help  
because with out this plan big kids will  
still be inside wasting energy on TV and  
game systems.

As I said Mayor Daley, this is  
a problem and I will like to stop it.  
With my five steps we should be  
done in at least under five years. Yes  
it will cost alot of money to impove all th  
parks in Chicago, Yes it will take a  
long time to add a big kid park in  
Chicago. But every kid will have fun.  
My motto for this project is:  
Every kid can have fun no matter what age they  
are.
