

5-14-09

Dear Mayor,

first my name is [redacted]  
[redacted] I go to a school  
called Ariel I am 9 years  
old. The class I am in is [redacted]  
Third grade Class I have  
a great teacher named  
[redacted].

We learned about  
what the city's biggest  
airport is. It ohare. I know  
about the great Chicago fire  
and how every thing was  
was wood so it caught  
on fire faster.

I think Chicago need  
a garden in every 50  
neighborhood so Chicago  
can look better and  
smell better. I will get  
money from the neighborhood  
store owners I will water them  
every week

Next, It is important to  
buy of the flower seeds. Gardens will  
make the city look good. Kids  
will be healthy because they  
will eat more things that are good  
for you. Like apples, beans, pear and  
plants from the gardens

That is how I will  
turn Chicago into a good looking  
city. That is how I will make  
Chicago a more healthy city.  
Chicago will be known  
for the gardens in the  
city.

from, [REDACTED]
