

Dear Mayor Daley, My  
plan is to give each house  
in Chicago their own computer.

Some people can not share  
computers. Some people can  
share some computers. My  
class is good sometimes we  
we get marbles.

My plan is good because  
people fight over computers  
and not share. They fight

instead of sharing. I learned  
that people can not stop fighting  
so that's way they need their  
own computer.

My big plan is to give  
people their own computer.  
So the people won't fight.  
My plan can help people.

Some people say that some  
computer are only \$100  
their are free if you trade

your computer, you can trade  
your computer for free. It  
would make people not fight.

Some people don't fight  
over computers but some do.  
That is why they need their  
own computer. My idea is to  
give people their own computer.

Sincerely,
