

Dear Mayor Daley,

5-14-09

First, I would like to introduce myself, my name is [redacted]

I'm a third grader at Ariel Community Academy, with my class and lovely teacher [redacted]

I have learned many great things about Chicago. Buckingham fountain sprouts water 150 ft into the air. Also, Chicago has more Alder men than any other city in the USA.

My big bold plan for Chicago is for every neighborhood to have a Multiple Place. A Multiple Place is a police station, a fire station, a hospital with a pharmacy all in one building! I want one of these in every neighborhood. I want to know that every body knows about my plan. After that, find some fire men, police men and doctors to work there. Last, find an architect to design my building.

This is important to the city because people won't have to go out of their neighborhood to get help. Let's say somebody needs help and the hospital is 10 miles away, go to the Multiple Place it will help. This is why we need a Multiple Place to save lives.

Sincerely,
