

Dear Mayor Daley,

5/15/99

My name is [redacted]. I am a third grader at Ariel Community Academy in Rose Hill, MO. We started learning about Chicago. Now we're writing things about community books and doing a project.

We learned about the buildings in Chicago. We learned what is important about the buildings. I learned that Chicago is the third largest city in the USA.

My dream for Chicago is to make more speed bumps. It will take a long time. You will need to put cement on the ground, paint the arrow up when it dries and put up the sign speed bumps ahead.

It's important to the city because people would get used to slowing down when they get to a stop sign. When someone passes the speed limit, they will slow down. It will help the future because no one will be running from the police unless they want their car messed up.

My plan is to make more speed bumps in the city. We need to put cement on the ground, paint the speed bump, and put the sign up. Now you have the speed bumps.

Sincerely,
[redacted]
