Dear Mayor Daley,

Hey, my name is
I am a student at Ariel Community Academy. In my class we have been learning about the history of Chicago and some of Chicago's important leaders. I would like to show you my big plan, my dream for Chicago's history.

In class I have learned about Chicago's community leaders. For example one community leader was Jane Adams. I also have learned what the different community leaders did. Also what those community leaders did to help Chicago today.

My big dream for Chicago is to try to make more camps/parks districts that will serve kids at the ages of 13 to 16. It shouldn't go from 6-12. My steps to make my big plan to become true is to first talk to camp instructors to tell them my plan. Second to introduce my plan.

Third I would see if I could talk to some construction workers to see if they can make more space in the camps. Fourth, to ask you if you can announce on the news my plan. I believe it is great! Last but not least, help people realize how this will effect the city of Chicago's population.

This is a great plan. The first reason it is a great plan is because it will help parents. Second, is because it will save energy because all they will have to do is stay on the computer and watch television. Third it should go to 16 because at 16 you can get a job and work instead of going to camp to play.

That is my big plan: to make summer camps go to age 16. That is what I would like to change about Chicago.

Sincerely,
