

5/12/09

Dear Mayor Daley,

Hello, my name is [redacted] and I have a dream for Chicago. You have the power to make it happen. Our class learned about the Hull House and Jane Adams. Now we want to help the Chicago like her. As I have said, you have the power to make my dream and everyone's dream come true.

When I said we learned about the Hull House we learned a whole lot more. We have been learning all about Chicago. We are even having a project making a landmark that we picked. I picked The Art Institute of Chicago. Also, we have to write an essay with it.

My dream is to have a school program that teaches wisdom and Martial Arts. How I am gonna make my dream happen is that we're gonna have the Masters of Martial Arts and then we're gonna talk to principals to see if we can use the gym and a classroom. Also, the money we collect we're gonna have our own building. Our colors of production is gonna be white, orange, yellow, black, blue, green, purple, brown, striped and full color balls.

(back)

~~The~~ ~~There are~~ important reasons why my dream is important.
My dream is important because kids get educated, on self defense
which will help them throughout their times.
A consequence of the martial art's there will
be a peaceful, safe town.

To summarize, this please, please let my dream come true.
I've been wanting this dream for a real long time, I know you
are the only one who can make my dream come true. Also, you
have the power to make everyone's dream come true.

Sincerely,
