

5-13-09

Dear Mr. Mayor,

We finally get the chance to meet you. We have learned what a mayor is this year. You are the chief of Chicago which means that you make many decisions like the president, the principal of my school, my teacher, and my parents - which involves me. We would like to take a few minutes of your time to tell you about our big plan for Chicago on 51st in State.

My plan is to keep our school open. We would like to stay open for these reasons. First, there are 300 kids in our school. Secondly, if you close our school, you would have a big abandoned building on the corner of 51st in State, which will cost you a lot of money to fix it up.

Next, it's a fantastic idea because if you close the school down, the neighborhood would be deserted. You would have to carry 300 kids on your back.

You will have to find them a new school. You would have a huge headache, then you would have to go to the doctor. So you can get your medicine. You will have to use the city's money to pay your doctor's bill. Mayor Daley, all we are asking you to do is to keep our school open.

My conclusion is, Mayor Daley we are asking you not to close our school down, so you won't have to carry 300 kids on your back. Also, you won't have a big ugly building on State Street.
