May 15, 2009

Dear Mayor Daley,

My big plan for Chicago progress is to have an ethnic foods in every neighborhood for the Olympics.

This is a great idea because when people come home from the Olympics and they are hungry, they will have ethnic food from all over the world.

The city will need a lot of money to get the restaurants and to get the food from all over the world.

Chicago would be different because people would not have to eat one kind of food, they could eat food from all over the world.

Your Friend,

Attucks School
