Barnard School

Dear Mayor Daily,

I learned lots of things in my class. We learned about recycling in Alice L. Barnard School. We learned we can recycle paper, plastic, and many others. We learn math, reading, Social studies, and science. I learned lots of things in my class in many ways.

I learned about the city of Chicago. I learned about Jean Baptiste Point DuSable. Jean Baptiste Point DuSable left a Chicago a legacy; it was the trading post. Daniel Burham was a City Planner. I learned about the city of Chicago.

I can make the city a better place. I can make Chicago better by making more buildings for parents to have more jobs. We can save the city by cleaning the streets and sidewalks. Walk not drive because the gas is polluting the earth.

Mayor Daily can help the city,

From
