Barnard School

Dear Mayor Daley,

We have a big classroom at Barnard School. There are a lot of books and other things we learn. We have a lot of hang-ups on the wall. And we learn everything: math, reading, extended responses, and this cheer: Turn the question into a statement. In the text the author says, I think.

We learned about Chicago.
We learned about Daniel Burnham.
We learned about John G. Batsie.
And we learned about the Great Fire.

If Chicago were a better place:
I would paint each house blue
I will send important messages
And I will build a bike park.

Sincerely,
