Barnard School

Dear Mayor Dailey,

My name is [redacted]. I'm 9 years old. I'm in 3rd grade. I like 3rd grade in many ways. I like 3rd grade because we learn how to save the Earth. My school's name is Alice L. Barnard School. It goes up to 8th grade. In conclusion our school is the best. I love school.

Chicago is a cool place in many ways. Did you know Daniel Burham planned how Chicago was going to look. He was a city planner. Also, Jean Baptiste Point DuSable left a legacy. In conclusion Chicago is a nice place. I love Chicago.

My big dream is to make the Earth a better place.

I can do that by recycling. you can
recycle Paper, Plastic, Even Metals. In
conclusion you should help the Earth.
I love the Earth do you?

Sincerely,
