

Barnard School May 15, 2009

Dear Mayor Daley:

My school is fun in many ways.

Hi my name is [redacted] and I am [redacted] and I am his daughter. My school is fun because my get to go to computers and the computer teacher let us play fun games on the computer after we are done doing our work.

Our art teacher let us color we color many different pictures like turtles the art teacher let us draw to. She let's us draw cats and sketch things we color and draw and sketch all the pictures she gives us and out line it with the black.

Our music teacher let us sing sometimes we do tests on singers like Michael Jackson. And sometimes we put our head down and listen to music. I am in the choir and dance with our music teacher.

We learned about Chicago that Jean Baptiste Pointe du Sable left a legacy and Jane Adams made a trading post with lots of buildings you go to and buy things back then they used to trade gold for cows and other things to trade.

we can make the city a better place in many ways. we could recycle and plant more trees and we could pick up things off the ground to help the environment we could use water less we could turn off the water after we finish wetting our teeth brush and brushing.

blessings!
