Barnard school

Letter to Mayor Daley

We learn read and write in many ways. We write and read and learn Every day. We count and work together. We go along into we have to stop, But we never stop going toward our goal. We can make Chicago better in many ways. In Chicago we can get bigger schools and community, people can get more jobs in the city. We can have more park districts in Chicago. We can have more trees so more people can get oxygen in there body. Chicago should have wider streets in Chicago. Chicago should have more hospitals. Chicago is the funniest city in the whole wide world.

You can help Chicago in many ways. We can get children in public schools in Chicago. Chicago need more stores so people could see in the world. We can have fountains in the schools and libraries in Chicago.

You should come to Chicago sometimes.
You can come to Barnard anytime
or any day you want to come.
