

[redacted]  
are school is awesome.

We do many things in many ways. Our teacher is awesome. We learn lots of things.

We do group work and together we figure things out. We don't fight or argue.

We earn free time by working hard as ever. I hope that our wonderful mayor help give new jobs in this city. Good luck on doing that.

We also learned that Dusable left a legacy for Burham.

Burham was a city planner.

and Dusable left a legacy.

There are two things we learned about them. They both helped Chicago. And we learned characteristics that is the thing we learned good luck again.
