Barnard School

Dear Mayor Dailey,

My name is

and I am in third grade. I go to Alice L. Barnard School. We learned about recycling and the water cycle. We also planted trees outside. Every Wednesday we have centers. We listen to books on the computer and we take turns reading books, too. I love my class!

We learned many things about Chicago. We learned the Jean Baptiste Pointe DuSable left a legacy (trading post). We also learned that Daniel Burnham was a city planner. Also we learned that Jane Adams setup a place to help people called the Hull-House. We also wrote about famous places in Chicago. Chicago is a cool city.

(over)

My bold plan would be to help make the world a better place. We could save water by taking shorter showers. We could plant more trees. We also could recycle paper, plastic, cans, aluminum, and metal. Also we could use fruit scraps to grow plants. We should help our Earth. Please help save Earth! Will you?

Sincerely,
