Barnard School

Dear Mayor Daley: A Letter for the Mayor Daley

Mr. School is cool in many ways.

Mr school is cool because we have cool kid's, cool teachers, cool Principals. The kid's at mr school are cool because, you can become friend with them easily. The kid's at mr school are also cool because, some of them don't be mean or start stuff with you. The kid's at mr school are cool in many ways.

Mr school is also cool, because the teachers are cool. The teachers are cool because, they don't yell at you like some of the teachers that I know. The teacher's at my school are also cool because, they will teach you every thing that a kid's should know about in school.

Not last, but not least, the Principals. The Principals at mr school are really cool Mr. Daley. They are cool because they come in the class and tell the teacher what they should teach.

Mr. Daley: Mr School is cool in many ways!

A letter for Mayor Daley

Dear Mayor Daley:

We can make the city a better place to live for many reasons.

We can make the city a better place if we do certain things. We can do certain things like stop littering and throwing food and trash in ponds, lakes, and trees. We should stop doing that stuff because it is bad for our environment, for the animals. It is bad for animals because it is ruining their habitat and it is ruining our habitat. We can make the city a better place for many reasons.

My big dream! My big dream is to save Chicago. People are cutting down trees and we are losing oxygen. We need trees to survive and to have paper, because if we don't have trees in our habitat then us people will suffer, so will the animals. So that is my big plan, dream.
