

May 13, 2009

Dear Mayor Daley,

I would like for you to make a big change because over 30 cps student's have been shot & killed this year around. So the big change I would like to see is to decrease violence. This is a great idea. So people want die, so we can live for love ones, and so we can play outside without violence.

It will take a a long time to decrease the violence because people think that the best way to solve their problems is by killing.

Chicago will be a better place because people wouldn't be getting killed, and losing their love ones. And so no more kids get killed. Because that will be very bad.

Sincerely,

Jacob Baidler
