

MAY 15 2009

Dear Mayor Daley,

Hello! My name is
I am writing to tell you my idea
to change Chicago and make it a better
place to live.

My idea is that people should pick up the
garbage that they throw down. You should
stop the people that live by the river because
they are the ones that are littering in the
river where the fish live. The people are
throwing garbage on the ground where the dogs
and cats live then the cats and dogs may
eat the garbage that the people throw down then
the animals will get sick and die.

To make this plan work we need to pick up
ten pieces of litter and bring it to the
recycling center and people could get money for
it. We also need to pay the people.

If you pick my plan Chicago will be a nice
city to live.
