

Dear Mayor Daley

Dear Mayor Daley, you can make Chicago a better place by putting a police on every block.

This is a great idea because it will stop robberies, drug dealers, and violence, and breaking.

What will the city need to do to make my plan happen lots of police. It might not cost a lot of money but it might take about two days or two months.

Chicago will be a better place because the drug dealers will stop dealing drugs. People don't have to worry about breaking or robberies and they won't worry about getting shot.

After we make these changes no one will be scared anymore.
