Beidler

Dear Mayor Daley

I can help Chicago be a better place by helping the homeless get off the street. The three ways I can do that is, by buying them food, building some shelters and buying them some thing to wear.

I think that will be a great idea because it will get the homeless off the street and make our city look better.

They will need to put the homeless in a home so they won't be on the street for to long.

It will be different because the streets of Chicago will look cleaner and people will be happier.

Sincerely S.
