

Dear Mayor Daley

Mr. Mayor I would want to have a talk with you and tell you that there are peoples out on the streets that need a lot of help. they need a lot of help that you can think about. Mr. Mayor when you make this change the world will be okay just like the great old days. could you build shelters for the homeless peoples. could you create more jobs too.

I think this is a great idea because helping people to live a better life makes the city more peaceful and no more homeless people. don't have to struggle no more. no more homeless people have to live on the streets no more.

When you make these changes the city will look better and the people will too
