

Hello Mayor Daley,
I want to let you know, my name is
and I want to thank you
all the things you have done
But, I want to ask would you help
the homeless get a job they
can live a perfect life

I think this is a great idea
because helping people to live a
better life makes the city much
more peaceful. People won't have
to rob people or places to survive

This can definitely happen. All
you have to is get some money and
people together and build some homes
and create some job.

When you make this happen the
city will look better and the
people will too.

Please try and make this change.
Thank you very much. IF you can write
me back when you get chance.
