

Dear

Mayor

Daley

I would want you to put money in school for we can have more school supplies for example we can have notebook paper pencil computers book and crayons and markers.

- I need these things to help our school learn harder Mayor Daley it will take a long time trying to make this change happen.

- Chicago will be a better place when you make this big change because everyone in the school will work harder and get done fast.

- kids will have a high chance for learning better Mayor Daley

I hope that you will help me

getting their work done.

Sincerely,
