

May 13, 2009

Dear Mayor Daley,

Do you know that 30 CPS student have got shot and killed this year because of all this violence. A big change I would to see in Chicago is to decrease all of the violence. This is a great idea because people might feel more safer coming and going out their houses and people feel more safe getting a job. The city needs to get rid of guns, and people need to get along and cooperate with each other. It will be a better place because it will be peaceful and kids will not grow up to be a killer like some people.

Sincerely,

Jacob Beidler
