Dear Mayor Daley,

I like see homeless have a home, job, and a life. They can have real food and they can go to good places. They can get some money so they can get a better life. That's why this is a great idea.

The city needs to come together so they can help the homeless. It will be a different place because they family will be happy. Why Chicago be a better place because in Chicago I don't see no homeless people in the alley.

Sincerely
