

May 14, 2009

Dear Mayor Daley,

My name is _____ . I am in third grade at Cesar E. Chavez school in the Back of the Yards neighborhood. I am nine years old.

I think we should have water parks in Chicago, that is my big idea. Right now there are not any water parks in Chicago. People sweat a lot in the summer and it will be a great place to cool off your body on a hot day. Lots of people would come especially children. It would be a lot of fun!

My plan for building the water parks would take a little bit of money and lots of construction. The city would need to hire lifeguards and people to work at the water parks. The construction workers would need to dig big holes and put tubes in for the waterslides. The construction workers would also need to build big pools too. It would take a lot of water and the people would need towels too.

I think that Chicago would be a better place because the city would look so cool with water parks. Also, the people would not be so hot in the summer. The kids would have a lot of fun too!

We need water parks in Chicago because the city would be a happier place. Please, Mayor Daley, put water parks in Chicago!

Sincerely,
