Dear Mayor Daley,

Our city need help with drugs and achanat. Everyday when I go to school every morning I see boys on the corner buying drugs and holding guns. I F they stop doing drugs they would be healthy. They would live a better life and stay off the streets. This the only way one can keep from going to jail.

People who don't have a home can live in a house with guards. The guard can always check the people to see if they have any drugs in their pockets. And they could have a medical center for the people who are sick, having a baby, or have been hurt or dying. We can have a parade to be drug free for the rest of our life. I will never do drugs ever in life.

May 6, 2020

Sincerely yours,
