Dear Mayor Daley,

My big idea for Chicago is to change gun laws. This is how Chicago would become a better place. This is a great idea because people are killed by drive by shootings often.

You will need to ban guns and other weapon but not from the Army and the Marines. It will take a long amount of time to collect the weapons but here is a way to get them. You could schedule more gun trade in days throughout the year. You also should close down gun shops.

Sincerely,

Crown Academy
