Dear, Mayor Daley

Please add more elevators in schools. For a lot of reasons, for handicapped people and people who are in rushes. This is a good idea because everyone will be able to move around the school safely.

It might cost a lot of money. And can we take a vote for elevators in more schools. Because handicapped people will not have a lot of stairs to walk when they are unable. Add more elevators in the schools. To help keep everyone healthy and safe

Sincerely yours,
