

May 14th, 2009

Dear Mayor Daley,

It should be a neighborhood watch in Chicago. It is going to help people who are seniors when someone breaks into their home. People will not have to buy new things if someone breaks into their homes. It can help people that want to fight against crime in the city, so children can be safe.

The city will need to work together to stop the crime. The city will have to put a lot of effort in it. It will be a better place where there is no crime. People will not have to be worried about people coming in their homes while their asleep. No one will be scared anymore.

Sincerely Yours,

[Redacted Signature]
