

May 14, 2009

Dear Mayor Daley,

My big idea for Chicago is to put more cameras to eliminate drug sales and crime. This is a great idea for Chicago because, they help catch people who are selling drugs and help find people who run red lights. They help find people who buy drug from the drug dealers.

The city will need to buy cameras and hire people to set up and monitor them. When the Mayor makes my change it will be a good change because there will be no more drug sales and people will not run red stop lights.

The bad people will go to jail. This is how it will be when the mayor makes my change.

Sincerely,

Craan Academy
