

May 14, 2009

Dear Mayor Daley,

Please make more jobs for homeless people. We need jobs when we grow up. Everyone will need to go to work. We need to make more money to survive in Chicago.

The city will need to get together and make more jobs and more homes for homeless people and other people that need jobs. Chicago will be different because we will think about the world being a nice and wonderful place to live with a lot of jobs for people.

Sincerely yours,
