

May 14<sup>th</sup>, 2009

Dear Mayor Daley,  
You should have internet in every school  
so we can all get on the computer  
because we only have two computers  
in my class room. Mayor you will  
have to buy computers for the schools.  
This will make it easier for us to do  
class work.

With the things we need, Mayor  
Daley, our city will be a better place.  
Mayor Daley you will have to buy more  
computers, give them internet so that they  
could work. Chicago will be different  
because now every school will have  
computers to get on with there in  
the class room. Our neighborhood will  
be a good place.

daley

Sincerely yours,
