

May 14, 2009

Dear Mayor Daley,
You should build more
businesses for the community
and for the people in
the community. The city
will make more money
and learn more things.
This will provide more
jobs for the people of Chicago

The city will need to
hire more builders and
ask people who don't have
a job to help. Then,
people can make more
money to do a lot
more with their families.

Sincerely yours,
