

MAY 14, 2000

Dear Mayor Daley,

My big idea for Chicago is to work on the potholes in the streets. People wouldn't have to swerve to avoid a pothole. Sometimes when you hit a pothole you can cause even an accident.

The city will need to have more trucks out going down side streets, as well as busy streets, to cover the potholes. When the Mayor makes this change it will make the streets more smoother and safer to drive on.

Sincerely,

Crown Academy
